Situated in Theodore Roosevelt Park, just steps away from Central Park, this expansive museum boasts **20 interconnected buildings**, encompassing **45 permanent exhibition halls**, a planetarium, and a library. AMNH's remarkable collections, totaling around **35 million specimens**, encompass the natural world's diversity, from plants, animals, and fossils to cultural artifacts and human remains.

MADAME TUSSAUD'S WAX MUSEUM

Step into the world of Madame Tussauds, a wax museum with a rich history dating back to 1835 when it was founded by the French wax sculptor Marie Tussaud. Once known as 'Madame Tussaud's', the apostrophe is now omitted. The museum's journey led it to its current location on Marylebone Road in London in 1883, and the new galleries that opened in 1884 were an instant hit. Madame Tussauds has been a beloved tourist attraction in London since the Victorian era, featuring wax replicas of famous historical figures, as well as iconic film and TV characters portrayed by renowned actors. Operated by the entertainment company Merlin Entertainments, this captivating museum has expanded its presence globally, with branches in cities across four continents, starting with the opening of the first overseas location in Amsterdam in 1970.
